

COMPLIANCE REPORT

OCTOBER 2021 - MARCH 2022

QUARRY PROJECT OF MR.
JOVIN GEORGE

KANNUR DISTRICT
KERALA

Dt.27-05-2022

The Additional Principal Chief Conservator of Forests (C)
Ministry of Environment, Forests & Climate Change,
4th Floor, E& F Wing, Kendriya Sadan,
Koramangala, Bangalore - 560034

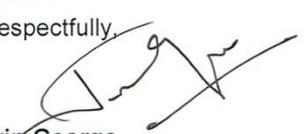

Ref :- File No. 01/KNR/2017/DEIAA

Sub :- Environment Clearance – Quarry project at Survey No. 275/1A
in Trippangottur Village, Thalassery Taluk, Kannur District, Kerala –
Compliance Report - Second half - Reg.

Respected Sir,

The Quarry (Building stone) project was accorded Environmental Clearance for 3.7556 Ha. by order No. 01/KNR/2017/DEIAA dated 22-05-2017 by District Environmental Impact Assessment Authority, Kannur, Kerala. The compliance report of Second half (October 2021 – March 2022) to the specific and general conditions of the Environment Clearance order is enclosed.

Thanking you,
Yours respectfully,

Mr. Jovin George

INTRODUCTION

Quarry project of **Mr. Jovin George** Madathinamattathil, Palissery, Thalassery P.O. is situated at Survey No. 275/1A, Trippangottur Village, Thalassery Taluk, Kannur District, Kerala.

The quarry project was accorded with the Environmental Clearance (EC) by District Environmental Impact Assessment Authority, Kannur on 22-05-2017. As part of general condition No.37 of Environmental Clearance order, half yearly compliance report needs to be submitted by the project proponent. The compliance report of Second half to the specific conditions, health conditions and general conditions of the Environmental Clearance order for the period of **October 2021 – March 2022** is being submitted.

COMPLIANCE REPORT

(SPECIFIC CONDITIONS)

PART A

PART - A – SPECIFIC CONDITIONS

01	A mines manager shall be appointed to control ,direct, manage and supervise the quarrying operations required under the mines Act ,1952	complied
-----------	--	-----------------

As per mandate, To control, direct, manage and supervise the quarrying operations as per the Mines Act 1952 the project proponent has appointed mines Engineers. The certificate of Mines engineer is attached as **Annexure No.1** and Form D is attached as **Annexure No 2** for the reference.

02	Health and welfare for the persons employed shall be implemented	complied
-----------	---	-----------------

The project proponent is keeping a First aid box in the project site. In association with Primary Health Centre of Local Self Government, the project proponent has been conducting health check up for the labours at regular interval. Other facility of housing, food, water and sanitation is provided by the project proponent.

03	Controlled blasting should be practiced and blasting shall be done only during day time. The mitigate measures for control of ground vibration to arrest the fly rocks and boulder should be implemented.	Complied
-----------	--	-----------------

The blasting is done in controlled manner by using Nonel technology to reduce ground vibration. All blasting activities are carrying out with the stipulated guidelines of explosive department and other concerned agency. No work will be there in the quarry site at Night.. The blasting time in the quarry is fixed at 9.00 am-10.30 am, 2.00 pm-3.00 pm and 4.00 pm to 5.30 pm. The mitigate measures to arrest ground vibration and fly rock is detailed in General condition No 11. The photograph of the Time showing blasting board is attached as **Plate No. 1**.

04	Plantation shall be done which includes a green belt of	Complied
-----------	--	-----------------

	adequate width around the mining lease area excluding the rocky area, along roads, overburden dumps and non-mineralized area by planting suitable native species in consultation with the local DFO/Agriculture department.	
--	--	--

To reduce air pollution and to enhance bio diversity value, the project proponent has started to plant various saplings in the project site to develop a green belt around the project area. Avenue trees also planted along the road side to minimise the dust emission. The project has taken the suggestion of agricultural department to plant the native species.

05	The drains should be regularly de silted and maintained properly check dam and gully checks shall be constructed wherever to required to arrest siltation.de siltation shall be done every year before the onset of monsoon	Complied
-----------	--	-----------------

To arrest the quarry waste entering in to the public drain and stream, the project has constructed De siltation chambers. These chambers are being de silted during summer season regularly.

06	Fencing shall be maintained properly all around the lease area.	Complied
-----------	--	-----------------

The project proponent has constructed barbed metal wire fencing around the lease area and it is maintained to prevent extraction of minerals from outside of the lease area.

07	The CSR need redrafting with inclusion of felt needs of the locality with special emphasize for implementing ground water recharging water recharging techniques in and at the vicinity of the proposed site.	Complied
-----------	--	-----------------

The CSR has been redrafted by the project proponent including the ground water recharging techniques. The same was submitted to DEIAA.

08	Appropriates sign boards should be displayed.	Complied
-----------	--	-----------------

The appropriate sign boards are installed in the project site like, danger, go slow, blasting time etc.. Photograph of the signboards is provided at **Plate No. 9**.

09	The blasting time must be displayed and strictly adhered to.	Complied
-----------	---	-----------------

The project proponent installed warning alarms as per the stipulation of Explosive department in the quarry site. To aware the labours and general public about the blasting a board containing blasting time has displayed in the project site. The blasting time is fixed at 9.00 am-10.30 am, 2.00 pm- 3.00 pm and 4.00 pm to 5.30 pm on all working days in the quarry. A board containing blasting time is displayed in the project site. The photograph of the Time showing blasting board is attached as **Plate No. 1**.

10	Dust suppression mechanism must be in place.	Complied
-----------	---	-----------------

In order to reduce the emission of dust in the project site, the project Splashes water using the vehicle.

11	A separate small plot to be maintained in the premise to preserve rare and endemic species. If any, listed in the biodiversity assessment etc.	Complied
-----------	---	-----------------

The project has started to plant various saplings in the project site. The Project has demarcated a small plot to preserve the endemic species. near to the lease area.

12	The PPV values must be less than 10 mm/sec.	Complied
-----------	--	-----------------

The project proponent is using controlled blasting by using NoNEL technology. Blasting operations are controlled by a qualified person. Therefore the project proponent can limit the PPV under 10 mm/sec

13	The green belt shall be provides around the periphery.	complied
-----------	---	-----------------

The project proponent has provided Green belt around the project area. This reduces air and noise pollution. This can reduce air and noise pollution. **Plate No. 15** shows the green belt.

14	Where the height of the bench formed during earlier workings exceeds the maximum each of the excavator engaged for work, such bench height shall be reduced from top to bottom.	Complied
----	--	-----------------

The extraction of minerals is being progress from top to bottom. The maximum height of all benches limited with 5 meters. All mining activities are progressing under the supervision of qualified personals for extraction of minerals by crating benches. .

15	Loose or hanging rock or mineral boulder on the side wall shall be dressed down before engaging persons for work at the bottom of the bench.	Complied
----	---	-----------------

The labours works on the bottom bench only after clearing loose minerals form the side wall. The vehicles like JCB, breakers are used to remove the loose or hanging mineral boulders in the project site.

16	Permanent boundary pillars should be fixed by the proponent before commencing quarrying	complied
----	--	-----------------

To demarcate the mining area, permanent Boundary pillars were fixed at each bent of the lease area. The photograph of the boundary pillars is provided at **Plate No. 2.**

17	No quarry blasting to be undertaken and sustained till warning time limit expires and /or when continues 48 hours cumulative rainfall exceeds 8 cm and blasting shall be resumed until 24hrs. of rain free situation arises in the quarry locality based on the evaluation by the revenue officials.	Complied
----	---	-----------------

The condition on quarrying operation during unfavourable weather conditions is being complied by the project proponent when such situation arises. No quarry blasting to be undertaken and sustained till warning time limit expires and /or when continues 48 hours cumulative rainfall exceeds 8 cm and blasting shall be resumed until 24hrs

18	All waste dumps and topsoil dumps shall be properly stabilized by using coir mats or bio regeneration .proper drainage system shall be provides so the water is properly diverted away from the dump slopes with no disturbance to the stability of the slopes.	Complied
----	--	-----------------

The waste dumps and topsoil dumps are stabilised by using coir mats or bio regeneration. The drainages are constructed in the project site. This helps to manage the storm water during monsoon season.

19	All dumps slopes shall be sufficiently stabilized by using appropriate species mix of grass .creepers, shrubs & trees. This shall be done in consultation with the forest department and local research institution and experts in stabilization of mine dumps.	Complied
----	--	-----------------

The project proponent has planted appropriate grass on the dump to prevent sliding and soil erosion once it is attain its maximum capacity. The overburden and topsoil stacking is progressing in the project site.

20	Garland drains of at least 2m width shall be provided all along 7.5 m buffer zone to divert the water from entering the quarrying slopes. These drains shall be cleaned every year before the monsoon season.	Complied
----	--	-----------------

The project proponent has constructed garland drain to catch the rain water along 7.5 m buffer zone. This can divert the storm water entering the quarrying slopes.

21	The water from the garlands drainage shall directed to the silt settling ponds. The clarified overflow from silt settling ponds shall be directed to a Rain Water Harvesting (RWH) pond before releasing the clarified water to the natural watercourse.	Complied
----	---	-----------------

The water from the garlands drainage is directing to the silt settling ponds. The construction of RWH pond is almost constructed. The clarified overflow from silt settling ponds will be directed to a Rain Water Harvesting (RWH) pond before releasing the clarified water to the natural watercourse.

22	A retaining wall of stone rubbles with wire mesh, of sufficient width and strength (not less than 2m) shall be constructed at the bottom of the slope of the quarry .lease area to arrest any likely roll of boulders during heavy rainfall.	Complied
----	---	-----------------

To protect the loose soil, at the bottom of the slope the project proponent has constructed a retaining wall with stone rubbles. This can prevent sliding and slumping. This has done at appropriate place in the mining area.

COMPLIANCE REPORT

(GENERAL CONDITIONS)

HEALTH

01	First Aid kit provide in the work site. It shall be periodically maintained property .some labourers shall be trained on First Aid.	Complied
----	--	-----------------

Project proponent has kept first aid box in the project site in order to provide first aid during injuries happen to the labours in the project. The project proponent has given training for the selected labours in the project site to use first aid box. The first aid kit is periodically maintained. Photograph of first aid is attached as **plate no. 16**

02	Whole some drinking water should be provided.	Complied
----	--	-----------------

Pure potable drinking water is available at all time for everyone in the project site.

03	Premises should be maintained as wet to suppress the dust.	complied
----	---	-----------------

To prevent air pollution, the project proponent splashing water on haulage roads and loading and unloading point to reduce the emission of dust

04	Sanitary type of latrines and urinals should be provided.	Complied
----	--	-----------------

The project proponent gives importance to the sanitary needs of workers in the project site. So the project proponent has given sanitary type of latrine and urinals to every labour in the project site. The photograph showing sanitary type of latrines and urinals are attached as **plate No. 3**

05	Resting place should be provided for workers.	Complied
----	--	-----------------

The project proponent has provided adequate rest rooms in the project area to get proper rest to the labours. **Plate No. 4** shows the resting place of workers

06	'No Smoking' board should be exhibited according to COTPA Act.	Complied
----	---	-----------------

The project proponent has displayed No smoking area in the project site. The photograph of the no smoking board is provided at **Plate No. 5**.

07	Work should not be done in night.	Complied
-----------	--	-----------------

The quarrying activities are limited to day time only as per KSPCB guidelines in order to reduce the inconvenience of community. No work activities done during night time. The working time of quarry is at the 7 am to 6 pm.

08	Details of nearest hospitals, shortest route to hospitals and contact no etc. Should be available.	Complied
-----------	---	-----------------

Details of nearest hospital and its shortest route, Fire station, Police station, etc are available in the project site. **Plate No. 6** Shows the board fixed with Emergency contact numbers

09	Approach roads should be maintained properly.	complied
-----------	--	-----------------

To arrest the dust emission and easy transportation the approach road has been properly maintaining by the project proponent in the project site.

**COMPLIANCE REPORT
(GENERAL CONDITIONS)
PART B**

PART – B – GENERAL CONDITION

01	Rain Water Harvesting capacity should be installed as per the prevailing provisions of KMBR / KPBR, unless otherwise specified.	Complied
-----------	---	-----------------

Compliance:

As part of water conservation and mitigation measure, In order to collect rainwater during the time of monsoon season all runoff from the quarry site is collected at the mined out pit. The project proponent has developed RWH ponds in the project site. The water from pond is mainly used for irrigation purposes, watering of plants, wetting of roads and for dust suppression system (mainly sprinklers system). Photograph of RWH pond is attached as **Plate No. 17**

02	Environment Monitoring Cell (EMC) as agreed under the affidavit filed by the proponent should be formed and made functional.	Complied
-----------	--	-----------------

Compliance:

To monitor and evaluate the works done under the conditions stipulated in the EC order, the project proponent formed an Environmental Monitoring Cell (EMC) with Mr. Jovin George as head of the monitoring cell. The EMC meeting convenes regularly for a sustainable environment.

Table 1 - Environmental Monitoring Cell (EMC)

Sl. No.	Post	Name
1	Head of monitoring cell	Mr. Jovin George
2	Member	C G George
3	Member	Kadappa Khadar Vali

03	Suitable avenue trees should be planted along either side of the tarred road and open parking areas, if any, inclusive of approach road and internal roads.	Complied
-----------	---	-----------------

Compliance:

The project proponent planted various tree saplings and native species in the project site as avenue trees and at parking area. To reduce air and noise pollution, the project proponent has planted various avenue trees along either side of the road. There is natural vegetation including trees, shrubs and climbers to reduce pollution. The photographs of avenue trees planted in the road side are given in **Plate No.7**. the purchase bill of plants is attached as Annexure No. 12

04	Maximum possible solar energy generation and utilization shall be ensured as an essential part of the project.	Complied
-----------	--	-----------------

Compliance:

The project proponent has installed solar street lights to maximum possible solar energy generation and utilization. The photograph of solar panel is given in **Plate No.14**.

05	Sprinklers shall be installed and used in the project site to contain dust emissions.	Complied
-----------	---	-----------------

Compliance:

To prevent dust emission, sprinklers are installed in the project site. The sprinklers installed in and around the crusher unit. In order to reduce dust emissions from the road while transportation of materials, the project is spraying water on roads during summer season at regular intervals.

06	Eco-restoration including the mine closure plan shall be done at the own cost of the project proponent.	Noted
-----------	---	--------------

Compliance:

The eco restoration and the mine closure plan will be done at the own cost of the project proponent. The project proponent started to plant various saplings in and around the project site.

07	At least 10 percent out of the total excavated pit area should be	Will be
-----------	---	----------------

	retained as water storage areas and the remaining area should be reclaimed with stacked dumping and overburden and planted with indigenous plant species that are eco-friendly, if no other specific condition on reclamation of pit is stipulated in the EC.	complied
--	---	-----------------

Compliance:

The project proponent will retain 10 percent of total excavated pit as rain water storage area. The remaining area will be reclaimed with stacked dumping of overburden and top soil. As part of its eco – restoration plan, the project will plant indigenous plant species that are eco – friendly on the reclaimed area.

08	Corporate Social Responsibility (CSR) agreed upon by the proponent should be implemented.	Complied
-----------	---	-----------------

Compliance:

As part of inclusive growth of the community, the project proponent executes various activities under Corporate Social Responsibility/ Corporate Environmental Responsibility of the firm with the consultation of Panchayath. The main activities were under the sectors of education, housing, health etc. The photograph of the activity is attached as **Annexure No.13**

Table No.2 – Detail of performed activities under CSR/CER

Sector	Activities	Amount in Rs.
Sports	millenium boys vadakke poyilur	5000
culture	poyilur sri muthappan madappura thira	150000
culture	edayar padiparamb sri balankavu thira	8000
Bio diversity	Malabar awareness and rescue centre for wildlife(save Sparrow)	50000
House construction Aid	Kunhan, Ayodan, Narikode mala(house aid)	20000
House construction Aid	Kelappan, Theyyadi, Narikode mala(house aid)	25000
	Total	258000

09	The lease area shall be fenced off with barbed wires to a maximum height of 4ft around, before starting of mining. All the boundary indicators (boards, stores, markings etc) shall be protected at all times and shall be conspicuous.	Complied
----	---	----------

Compliance:

The project proponent has installed fencing around the area where lease obtained. The complete installation of barbed metal wire fencing around the mining area is with height of 4 ft. All the boundary indicators (boards, stores, markings etc) are being protected at all times. Photograph of fencing is attached as **Plate No. 18**

10	Warning alarms indicating the time of blasting (to be done at specific timings) has to be arranged as per stipulations of Explosive Department.	Complied
----	---	----------

Compliance:

As per the stipulation of Explosive department, the project proponent has installed warning alarms in the quarry site. This siren is blown before blasting and after blasting. The blasting timings are displayed in the prominent area by way of caution board. Photograph of warning alarm is attached as **plate No. 19**

11	Control measures on noise and vibration prescribed by KSPCB should be implemented.	Complied
----	--	----------

Compliance:

To reduce noise and vibration, the following measures are adopting in the project site.

- Proper maintenance of machinery and equipments
- The machineries like breaker and excavator has well sound proof cabin so that the machine operators can work without stress due to the sound.
- Personal protective devices i.e., earmuffs, ear plugs etc. are provided to workers working in high noise areas.
- The mining activity held in day time only.

Blast vibrations and control measures

- ❖ Controlled blasting technique is adopted in this project in order to reduce blast vibrations.
- ❖ The maximum charge per delay is not more than 10kg to limit the PPV values to 10mm/sec.
- ❖ Optimum delay sequence and stem to column ratio is maintaining to minimize the ground vibration intensity.
- ❖ The project proponent has appointed qualified persons to monitor the mining operations

12	Quarrying activities should be limited to day time as per KSPCB guidelines/specific conditions.	Complied
-----------	---	-----------------

Compliance:

Quarrying activities are limited to day time only as per KSPCB guidelines. The quarry working time is 7.00 am to 6.00 pm. This will help to limit the sound pollution.

13	Blasting should be done in a controlled manner as specified by the regulations of explosives department or any other concerned agency.	Complied
-----------	--	-----------------

Compliance:

The blasting is done in controlled manner by using NoNEL technology. All blasting activities are carrying out with the specified regulations of explosive department. All blasting are under careful supervision of qualified persons. The blasting time is fixed at 9.00 am-10.30 am, 2.00 pm- 3.00 pm and 4.00 pm to 5.30 pm. The photograph of the Time showing blasting board is attached as **Plate No. 1**.

14	A licensed person should supervise/control the blasting operations.	Complied
-----------	---	-----------------

Compliance:

The project proponent has appointed mines manager in the site to supervise/control exploitation of minor minerals including blasting at the project site. The certificate of licensed person is attached as **Annexure No. 1** and Form D is attached as **Annexure No. 2**

15	Access roads to the quarry shall be tarred to contain dust emissions that may arise during transportation of materials.	Complied
----	---	----------

Compliance:

To contain dust emissions and for the trouble free transportation of materials, the project proponent is maintaining the access road from the entrance of project site to quarry in good manner. The project splashes water on the road to arrest the dust production during summer season. Photograph of access road is attached as **plate No. 20**

16	Overburden materials should be managed within the site and used for reclamation of mine pits as per mine closure plan/ specific conditions.	Complied
----	---	----------

Compliance:

The overburden and topsoil need to extract during the time of mining, these natural resources are stored at designated place within the project site. This can be used to restore the exploited area in future.

17	Height of the benches should not exceed 5m, and width should not be less than 5m, if there is no mention is the mining plan/specific conditions.	Complied
----	--	----------

Compliance:

The quarrying activity in the project site is progressing by creating benches of 5m width and 5m height. The formation of benches is under the direction and supervision of competent person. Same is attached as **Plate No. 13**.

18	Mats to reduce fly rock blast to a maximum of 10 PPV should be provided.	Complied
----	--	----------

Compliance:

The project proponent uses blasting mats. The project proponent is using ordinary delayed detonator, therefore there is no incident of fly rock is happened in the community. The project proponent is also assuring the maximum PPV is under 10 during the time of blasting.

19	Maximum depth of mining from general ground level at site shall not exceed 10m.	complied
----	---	-----------------

Compliance:

The mining depth does exceed beyond 10 meter from the general ground level.

20	No mining operations should be carried out at places having a slope greater than 45°.	Complied
----	---	-----------------

Compliance:

No mining operation is being carried out with a slope greater than 45°.

21	Acoustic enclosures should be provided to reduce sound amplifications in addition to the provisions of green belt and hollow brick envelop for crushers so that the noise level is kept within prescribed standards given by CPCB/KSPCB.	Complied
----	--	-----------------

Compliance:

To reduce the impact of sound to the labours in the unit, the project proponent has provided ear plugs. Vegetation around the mining area will help to reduce noise and air pollution. This helps the noise level kept within prescribed standards. The project proponent is trying to enhance the vegetative cover by planting more tree saplings.

22	The workers on the site should be provided with the required protective equipments such as ear muffs, helmet, etc.	Complied
----	--	-----------------

Compliance:

As part of safety the project proponent has provided adequate Personnel Protective Equipments (PPE) such as helmets, ear plugs, safety belts, gloves, etc. to the labours in working site.

23	Garland drains with clarifiers to be provided in the lower slopes around the core area to channelize storm water.	Complied
-----------	---	-----------------

Compliance:

The proponent is very conscious to prevent all quarry waste to enter in the public drainage or stream. The project has constructed storm water drains in the lower slopes of the project area for effective management of storm water. This helps to channelize the storm water to the rain water collection pond and the most of the debris will be settled down in the bottom of the pond. Photograph of De- siltation trap is attached as **plate No. 21**

24	The transportation of minerals should be done in covered trucks to contain dust emissions.	Complied
-----------	--	-----------------

Compliance:

All vehicles with loaded materials are going outside as covered trucks to contain dust emissions. Photograph of covered truck is attached as **plate No. 22**

25	The proponent should plant trees at least 5 times of the loss that has occurred while clearing the land for the project.	complied
-----------	--	-----------------

Compliance:

The project proponent has been planting various saplings in the project area as a compensation of loss of trees while the project is clearing the land for mining. The project proponent is planning to plant more tree saplings in the project site.

26	Disposal of spent oil from diesel engines should be as specified under relevant Rules/Regulations.	complied
-----------	--	-----------------

Compliance:

A portion of spent oil is being used as lubricant in the project site. The excess used oil sold only to the approved recyclers.

27	Explosives should be stored in magazines in isolated place specified and approved by the explosives department.	complied
----	---	-----------------

Compliance:

As part of safety, Explosives are stored in magazine. The magazine situated in an isolated place specified and approved by the explosives department. The area surrounded to the magazine is fenced with barbed metal wire. **Plate No 8** shows the photograph of the Magazine.

28	A minimum buffer distance of 100m meter from the boundary of the quarry to the nearest dwelling unit or other structures, not being any facility for mining shall be provided.	complied
----	--	-----------------

Compliance:

To reduce the adverse impact on community life, the norms of Kerala State Pollution Control Board regarding the distance criteria of residences, roads, rivers and worship places is adhered by the project. The distance of the nearest house is 143 meters form the quarry.

29	100 m buffer distance should be maintained from forest boundaries.	Complied
----	--	-----------------

Compliance:

The project proponent has left more than 100 meters as buffer distance from the project site.

30	Consent from Kerala Pollution Control Board under Water and Air Act(s) should have been obtained before initiating activity.	Complied
----	--	-----------------

Compliance:

The project proponent has obtained consent from KSPCB under Water and Air Act(s). The copy of certificate of “*Consent to Operate*” (Renewal) from Kerala State Pollution Control Board is provided in **Annexure No.3**.

31	All other statutory clearances should have been obtained, as applicable, by project proponents from the respective competent authorities including that for blasting and storage of explosives.	Complied
----	---	-----------------

Compliance:

The certificates obtained from concerned statutory authorities are enclosed in **Annexure No. 3, 4, 5, 6 & 7**. The details are given in **Table No 3**

TABLE 3 – APPROVALS FROM COMPETENT AUTHORITIES

Name of the Statutory approval	Name of the Statutory authority
Environmental Clearance order	State Environmental Impact Assessment Authority, Kerala
“Consent to Operate”	Kerala State Pollution Control Board
Explosive License	Ministry of Commerce & Industry – Petroleum & Explosives Safety Organization (PESO)
License for quarry operations	Gram Panchayath
Permit order	Directorate of Mining and Geology

32	In the case of any change(s) in the scope of the project, extent quantity, process of mining technology involved or in any way affecting the environmental parameters/impacts as assessed, based on which only the EC is issued, the project would require a fresh appraisal by this Authority, for which the proponent shall apply and get the approval of this Authority.	Noted
----	---	--------------

Compliance:

In case of any change(s) in the scope of the project, the proponent will apply for fresh appraisal to get the Environmental Clearance.

33	The Authority reserves the right to add additional safe guard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions	Noted
----	--	--------------

	of the Environmental (Protection) Act 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.	
--	---	--

Compliance:

To enhance environmental sustainability and conserve natural resources, the project proponent is willing to add all possible additional safe guard measures subsequently if the authority found necessary.

34	The stipulations by Statutory Authorities under different Acts and Notifications should be complied with, including the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act 1981, The Environment (Protection) Act, 1986 the public liability (Insurance) Act, 1991 and EIA notification, 2006.	Complied
-----------	--	-----------------

Compliance:

The stipulated orders and directions under different act and notification including EIA notification will be scrupulously followed. A brief list of various Acts and notifications which are followed by the proponent is given below

- Kerala Minor Mineral Concession Rules, 2015.
- Mines Act, 1952
- Explosive Rules, 2008
- Kerala Panchayat Raj Act, 1994
- Water Pollution (Prevention & Control) Act, 1974
- Air Pollution (Prevention & Control) Act, 1981
- Environment Protection Act, 1986
- EIA Notification, 2006 / 2009
- The Kerala Promotion of Tree Growth in Non-Forest Areas (Amendment) Act, 2007.

35	The project proponent should advertise in at least two local news papers widely circulated in the region, one which (both advertisement and the newspaper) shall be in the vernacular language informing that the project has been accorded Environmental Clearance and	Complied
-----------	---	-----------------

	copies of clearance letters are available with the Department of Environment and Climate Change, Govt. of Kerala and may also be seen on the website of the Authority at www.seiaakerala.org . The advertisement should be made within 10 days from the date of receipt of the Clearance letter and the copy of the same signed in all pages should be forwarded to the office of this authority as confirmation.	
--	--	--

Compliance:

An advertisement in two local daily newspapers (English and Malayalam) regarding Environmental Clearance accorded to the quarry project was given within the stipulated period and the copy of the same was submitted at SEIAA Kerala.

36	A copy of the clearance letter shall be sent by the proponent to concerned Grama/District Panchayath / Municipality / Corporation / Urban Local Body and also to the Local NGO, if any from whom suggestions / representations, if any were received while processing the proposal. The Environmental Clearance shall also be put on the website of the company by the proponent.	Complied
-----------	---	-----------------

Compliance:

A copy of the Environment Clearance letter was submitted to the Panchayat Office. The project proponent did not receive any suggestions / representation from anywhere while the processing the proposal. The Acknowledgement of the clearance letter sent to the Panchayat is attached as **Annexure No. 8**

37	The proponent shall submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) and upload the status of compliance of the stipulated EC conditions including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the respective Regional Office of MoEF, Govt. of India and also to the State	Complied
-----------	--	-----------------

	Environment Impact Assessment Authority (SEIAA) office.	
--	---	--

Compliance:

The compliance report is being submitted to the District Environmental Impact assessment Authority, Kannur, State Environmental Impact assessment Authority, Kerala and the Regional Office of MoEF&CC Bangalore as Email. The monitoring result is attached as **Annexure No. 9, 10 & 11.**

38	The details of Environmental Clearance should be prominently displayed in a metallic board of 3 ft x 3ft with green background and yellow letters of Times New Roman font of size of not less than 40. Sign board with extent of lease area and boundaries shall be depicted at the entrance of the quarry, visible to the public.	complied
-----------	--	-----------------

Compliance:

The conditions of the environmental clearance prominently displayed in a metallic board of 3 ft x 3 ft with green background and yellow letters of Times New Roman font. **Plate No. 6** is the photograph of the Metallic board. The extent of lease area boundary will depict soon. The photograph of the metallic board is provided as **Plate No. 10**

39	The proponent should provide notarized affidavit (indicating the number and date of Environmental Clearance proceedings) that all the conditions stipulated in the EC shall be scrupulously followed.	Complied
-----------	---	-----------------

Compliance:

An assurance in the form of affidavit was already submitted to DEIAA

40	No change in mining technology and scope of working should be made without prior approval of the SEIAA, No further expansion or modification in the mine shall be carried out without prior approval of the SEIAA, as applicable.	Noted
-----------	---	--------------

Compliance:

At present, the project proponent is not intending to expand the area of mine, technology and scope of working. The project will appear SEIAA for Environment Clearance if the project wants to expand its scope. The mining is progressing as per submitted plan.

41	The project proponent shall ensure that no natural water course and/or water resources shall be obstructed due to any mining operations. Necessary safeguard measures to protect the first order streams, if any originating from the mine lease shall be taken.	Complied
----	--	-----------------

Compliance:

There is no such natural water course or thodu is flowing along the project site. The project proponent will ensure the natural runoff of storm water. No stream is originating from the lease area.

42	Monitoring of Ambient air Quality to be carried out based on the notification 2009, as amended from time to time by the Central Pollution Control Board. Water sprinkling should be increased at places loading and unloading points & transfer point to reduce fugitive emissions.	Complied
----	---	-----------------

Compliance:

The project proponent has monitored the ambient air quality as per National Ambient Air quality Standard (NAAQS). The project proponent is intending to increase the splashing of water and installed sprinklers at loading, unloading and transfer points. This activity can reduce the fugitive emission.

43	The top soil, if any, shall be temporarily stored at earmarked site(s) only for the topsoil shall be used for land reclamation and plantation. The Over Burden (OB) generated during the mining operations shall be staked at earmarked dump site(s) only. The maximum height of the dumps shall not exceed 8m and width 20m and overall slope of the dumps shall be maintained to 45°. The OB dumps should be scientifically vegetated with suitable native species to prevent erosion	Complied
----	---	-----------------

	and surface run off. In critical areas, use of geo textiles shall be undertaken for stabilization of the bump. The entire excavated area shall be backfilled. Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining.	
--	--	--

Compliance:

The natural resources like top soil and overburden is being stacked in a designated place within the project site. Only topsoil is being used for plantation. Overburden used for landfill and to construct haulage roads in the mining area. The excess are being stored in a designated place as per the direction of District Environment Impact Assessment Authority (DEIAA), Kannur. The Environment Monitoring Cell monitors the execution of eco restoration.

44	Catch drains and siltation ponds of appropriate size shall be constructed around the mine working, mineral and OB dumps to prevent run off of water and flow of sediments directly into the river and other water bodies. The water so collected should be utilized for watering the mine area, roads, green belt development etc., The drains shall be regularly de silted particularly after monsoon and maintained properly.	complied
-----------	---	-----------------

Compliance:

The project proponent has constructed effective garland drains to catch all the storm water during the time of monsoon season. These channels directs the water to the rain water collection pond. All sediments and silts are settling at the bottom of the pond and only cleared water is letting out. The water from the pond can be used for splashing of water on roads to arrest the dust.

45	Effective safeguard measures such as regular water sprinkling shall be carries out in critical areas prone to air pollution and having high levels of PM ₁₀ and PM _{2.5} , such as haul road, loading an un loading points and transfer points – it shall be ensured that the Ambient Air Quality Parameters confirm to the norm prescribed by the Central Pollution Control Board in this regard.	complied
-----------	--	-----------------

Compliance:

The project proponent is regularly checking the pollution of all vehicles in the site and spraying water in critical areas prone to air pollution with the help of vehicle. The project proponent has fixed sprinklers in critical area to reduce the dust emission such as loading and unloading points, haul roads and transfer points. The ambient air quality is monitoring with the help of an approved laboratory.

46	Fugitive dust emission from all the sources should be controlled regularly. Water spraying arrangements on haul roads, loading and unloading and at transfer point should be provided and properly maintained.	complied
----	--	-----------------

Compliance:

The project proponent splashes water in critical area to reduce the dust emission such as loading and unloading points, haul roads and transfer points. The sprinklers and vehicle for water spraying are properly maintained.

47	Measures should be taken for control of noise levels below 85 dBA in the work environment.	Complied
----	--	-----------------

Compliance:

The main sound generating activities are the playing of jack hammer, breaker, vehicles and blasting operations. The level noise from all these activities will not go beyond 85dBA. The project proponent has taken appropriate action to reduce the sound by employing possible measures. These are mentioned under the condition number 11. At present all machines and vehicle are properly maintained in the industry.

48	A separate Environmental Management Cell with suitable qualified personal should be set up under the control of a senior executive, who will report directly to the Head of the Organization.	Complied
----	---	-----------------

Compliance:

To monitor all conditions stipulated in the Environment Clearance and environment Management Plan, the project proponent constitutes an Environment Monitoring Cell with Mr. Jovin George as the head of the Cell.

49	The funds earmarked for environmental protection and CSR activities should be kept in separate account and should not be diverted for other purpose. Year wise expenditure should be reported to the State Environment Impact assessment authority (SEIAA) office.	complied
----	--	-----------------

Compliance:

The project proponent executes many activities under Corporate Social Responsibility (CSR) for community development. To implement these activities in a good manner, the project proponent has opened an account for keeping the funds earmarked for environmental protection and CSR.

50	The Regional Office of MoEF &CC located at Bangalore shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer(s) of the regional Office by furnishing the requisite data/information/ monitoring reports.	Noted
----	---	--------------

Compliance:

The project proponent scrupulously follows the condition stipulated in the EC order and keeping all records with a good documentation system. The project will extent all possible cooperation to the officers form regional office of MoEF &CC and can produce all data/information/reports when they are asking for the same.

51	Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred within a period of 30 days as prescribed under section 16 of the National Green tribunal Act, 2010.	Noted
----	--	--------------

There is no appeal against the obtained EC within 30 days after issuance of EC.

52	Concealing the factual data or submission of false/ fabricated data and failure to comply with any of the conditions mentioned above may	Noted
----	--	--------------

	result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.	
--	---	--

All factual data were submitted at Authority during appraisal of the project.

53	The SEIAA may revoke or suspend the order, for non implementation of any of the specific or this implementation of any of any of the above conditions is not satisfactory. The SEIAA reserves the right to alter/modify the above conditions or stipulate any further condition in the interest of environment protection.	Noted
-----------	--	--------------

Compliance:

The project proponent is willing to implement the conditions stipulated in the Environment Clearance order. The project can execute all possible measures in the project site for the conservation of environment.

54	The above conditions shall prevail notwithstanding anything to the contrary, in consistent, or simplified, contained in any other permit, license on consent given by any other authority for the same project.	complied
-----------	---	-----------------

Compliance:

The project proponent gives priority to the conditions stipulated in the Environment clearance Order.

55	This order is valid for a period of 5 years or the expiry date of mine lease period issued by the Govt. of Kerala, whichever is earlier.	Noted
-----------	--	--------------

56	The environmental clearance will be subject to the final order of the courts in any pending litigation related to the land or project, in any court of law.	Noted
-----------	---	--------------

57	The mining operation shall be restricted to above ground water table and is should not intersect ground water table.	complied
-----------	--	-----------------

Compliance:

The project proponent is following approved mining plan for the extraction of building stones. The project proponent restricts its mining operations above the ground water table.

58	All vehicle used for transportation and within the mine shall have "PUC" certificate from authorized pollution taking center. Washing of all vehicles shall be inside the lease area.	Complied
-----------	---	-----------------

Compliance:

As part of reduce air pollution, the project proponent is monitoring the pollution level of all vehicles playing in the project site. This monitoring conducts only in authorized pollution testing center.

59	Project proponent should obtain necessary prior permission of the competent authorities for drawl of requisite quantity of surface water and ground water for the project.	Noted
-----------	--	--------------

Compliance:

At present, the need of prior approval is not necessary to draw ground water and surface water for the project.

60	Regular monitoring of flow rates and water quality upstream and down streams of the springs and perennial nallahs flowing in and around the mine lease area shall be carried out and reported in the six monthly report to SEIAA.	Noted
-----------	---	--------------

Compliance:

There is no stream or springs flowing in and around to the mine lease area. The project proponent will install de siltation trap and other mechanism to prevent sediments and wastes from the mining area entering in to the public drainage system.

61	Occupational health surveillance programme of the workers should be under taken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.	complied
-----------	---	-----------------

Compliance:

The project proponent has started occupational health surveillance programme in association with Primary Health Center (PHC) of Kerala government for the labours working in mining area and crusher.

ENVIRONMENTAL CLEARANCE NO. 04/2017

Sri.Jovin George, Madathinamattathil, Palissery, Thalassery.P.O. Kannur District, Kerala vide his application received on 17/01/2017, has sought Environmental Clearance under EIA Notification, 2006 for the quarry project of an area of 3.7556Hectares in Survey No. 275/1A of Tripangottur Village, Thalassery Taluk, Kannur District. The project comes under Category B, Activity 1(a), (i) as per the Schedule of EIA Notification 2006 and as per O.M. No. L-11011/47/2011-IA.II (M) dated 18th May 2012 of Ministry of Environment and Forests. It is further categorized as Category B2 as per the O.M. No. J-13012/12/2013-IA-II (I) dtd. 24.12.2013 of Ministry of Environment and Forests, since the area of the project is below 25 hectares. As per gazette notification no SO 190(E)dtd 20/01/2016, Government of India and GO(Ms)no.05/2016/Envtd 04/04/2016, Govt:of Kerala DEIAA and DEAC constituted for considering the applications for environmental clearance less than 5 hectares in individual cases and 25 hectares in cluster

The proposed project site falls within Latitude: 11°47'50.59"N to 11°47'59.02"N and longitude 75°40'41.61"E to 75°40'51.60"E". The land area consists of 3.7556hectares, which is private land. The land use classification as per revenue records is

PROCEEDINGS OF THE DIRECTOR OF MINING & GEOLOGY

Sub: Mining & Geology - Mines & Minerals - Minor Minerals – Granite Building Stone – Quarrying Lease to **Shri. Jovin George, Madathinamattathil House, Palisseri, Thalassery. P. O, Kannur District – 670 101** –sanctioned – orders – issued.

Ref: 1. Application dtd. 21/02/2017 from **Shri. Jovin George, Madathinamattathil House, Palisseri, Thalassery. P. O, Kannur District – 670 101**
 2. Letter No. DOC/M-5353/2016 dtd. 30/08/2016 from the Geologist, District Office, Kannur
 3. Pro.order. No. 01/KNR/2017/DEIAA dtd. 22/05/2017 of the District Environment Impact Assessment Authority, Kannur, Kerala
 4. Kerala Minor Mineral Concession Rules, 2015.

No. 409/2017-18/8825/M3/2016/DMG **Dated, Thiruvananthapuram 04/10/2017**

ORDER

A quarrying lease is granted to **Shri. Jovin George, Madathinamattathil House, Palisseri, Thalassery. P. O, Kannur District – 670 101** to quarry **Granite (Building Stone)** over an area of **3.7556 Hectares** of land comprised in **Re - Sy. No. 275/1A of Tripangottur Village, Thalassery Taluk, Kannur District** for **12 (Twelve)** years from the date of execution of the quarrying lease deed under the Kerala Minor Mineral Concession Rules, 2015 and as per the survey map issued by the **Tahsildar, Thalassery** and the approved Mining Plan and environmental clearance submitted by the applicant subject to the under mentioned conditions.

1. Royalty is payable to Government as per Rule 32 of the Kerala Minor Mineral Concession Rules, 2015 in respect of minor mineral quarried and moved out of the quarry subject to revision from time to time on the basis of amendments to the schedule I of the said Rules.
2. Dead rent is realizable under 40(1)(d) of the said rules subject to revision from time to time on the basis of amendments to the schedule II of the said rules.
3. Surface rent realizable under 40(1)(e) of the said rules will be equal to the land revenue assessed by the Revenue Department subject to revision from time to time on the basis of the land revenue.
4. The lessee shall execute a quarrying lease deed within a period of six months from the date of this order in form 'H' as per Rule 43 of the Kerala Minor Mineral Concession Rules, 2015.
5. The lessee shall also deposit an amount of Rs 10,000/- (Rupees Ten Thousand only) per hectare as security deposit for the observance of the terms and conditions of the lease before the deed is executed as per rule 42 of the said rules. The lessee shall commence quarrying operation only after the deed is executed and registered.
6. The quarrying area shall be demarcated and boundary stones fixed at the lessee's expenses before execution of the quarrying lease deed.
7. The lessee shall not win and dispose of any type of dimension and decorative stones from the area over which the quarrying lease has been sanctioned on the strength of this order.
8. The production of Granite (Building Stone) from the area covered under this grant shall be subject to the quantity specified in the Mining Plan submitted by the lessee and the same is restricted to **1,40,000 Metric Tonnes** per year.
9. (i) The lessee shall erect a notice board in Malayalam at a prominent place with a minimum size of 1 metre X 1.5 metres in a metallic board near to the entrance of the quarry to the effect that it shall contain the name and address of the permit holder, mineral concession number and date, the mineral to be extracted, permit number and date and its date of expiry, quantity of extraction permitted (if applicable). Area of extraction permitted, explosives used (if any), etc.
- (ii) The lessee shall erect a warning board with danger sign regarding operation of the quarry, 100 metres away by the side of the road leading to it.
10. The lessee shall fence the lease area before the commencement of the quarrying operation for preventing accidents by falling of human beings, animals, vehicles or any materials into

Copy of Lease

Annexure No. 8

The Secretary,
Tripangottoor Panchayat,

അങ്ങാടിക്കുരുവി ദിനം ഇന്ന് അങ്ങാടി വലുതായി, കുരുവികൾ കുറഞ്ഞു

സി. സുനിൽകുമാർ കണ്ണൂർ

അങ്ങാടിക്കുരുവികളുടെ (ഹൗസ് സ്റ്റാരോ) എണ്ണം കണ്ണൂർ ജില്ലയിൽ കുറഞ്ഞതായി പഠന റിപ്പോർട്ട്. പിലാത്തറ സ്വദേശി ബിജിൻ പി.യും ഡോ. രോഷിനാഥ് രമേശും മലബാർ അമ്പലമുക്ക് ആൻഡ് റെസ്റ്റ് റെസ്റ്റോറേഷൻ ഫോർ വൈൽഡ് ലൈഫിനുവേണ്ടി നടത്തിയ പഠനത്തിലാണ് ഈ കണ്ടെത്തൽ. 2015-ലാണ് കണ്ണൂർ ജില്ലയിലെ അങ്ങാടിക്കുരുവികളെക്കുറിച്ച് ആദ്യമായി ശാസ്ത്രീയപഠനം നടന്നത്. അന്ന് പക്ഷികളെ കണ്ടെത്തിയ 35 ഇടങ്ങളടക്കം 61 സ്ഥലങ്ങളിലാണ്

2021-ൽ പഠനം നടത്തിയത്. 27 ശതമാനം കുറവാണ് പക്ഷികളുടെ എണ്ണത്തിൽ കണ്ടെത്തിയത്. 940 പക്ഷികളെയാണ് 2021-ൽ 61 ഇടങ്ങളിലായി കണ്ടെത്തിയത്. കണ്ണൂർ നഗരത്തിൽ പഴയ ബസ്സ്റ്റാന്റിലെ പരിസരങ്ങളിൽ മാത്രമാണ് ഇവ കൂടുതലായതായി കണ്ടെത്തിയത്. ചെറുനഗരങ്ങളിലാണ് ഇവയുടെ എണ്ണം കൂടുതലുള്ളത്. റേഷൻകടകം, അനാദി കടകം, കോഴിക്കടകം എന്നിവയുടെ പരിസരത്താണ് ഇവയെ ഏറെ കാണുന്നത്. മൊബൈൽ കടവകം അങ്ങാടിക്കുരുവികളുടെ എണ്ണ

അങ്ങാടിക്കുരുവികൾ

കുരുവിന് കാരണമാണെന്ന വാദത്തിൽ കഴമ്പില്ലെന്ന് പഠനത്തിൽ കണ്ടെത്തി. 61 വാസ സ്ഥലങ്ങളിൽ നാലിടത്തും മൊബൈൽകടവകങ്ങളുണ്ടെന്ന് പഠനത്തിന് നേതൃത്വം നൽകിയ റോഷിനാഥ് പറഞ്ഞു. കഴിഞ്ഞ രണ്ടുവർഷമായി നഗരങ്ങളിൽ അങ്ങാടിക്കുരുവികൾക്കായി 'മാർക്ക്' കൂടു

കം വെക്കാനുണ്ട്. ജില്ലയിൽ പലയിടത്തായി ജിയോ സാൻഡിന്റെ സഹകരണത്തോടെ ഇരുനൂറ്റോളം കൂടുതൽ വെച്ചു കഴിഞ്ഞു. നഗരങ്ങളിൽ ചെറു പച്ചത്തുരുത്തുകൾ ഒരുക്കിയാൽ മാത്രമേ ഈ ചെറുപക്ഷിയുടെ നിലനിൽപ്പ് സാധ്യമാകൂ എന്ന് ബിജിൻ പറഞ്ഞു.
